Leveraging research to drive smarter, more equitable, philanthropy

March 13th, 2014
Haven D. Ley, Senior Advisor
We partner to apply data and research across our work

- To move the global conversation
- To determine what to allocate resources to
- To decide how to best allocate resources
- To keep learning and course correct

The power of family planning

As Brazil's child mortality rate dropped, so did its fertility and population growth rates.

- **Mortality Rate**: The probability per 1,000 that a newborn baby will die before reaching age five.
- **Fertility Rate**: The average number of births per woman.
- **Population Growth Rate**: Percentage change of resident population compared to previous year.
